

**TECHNICAL BULLETIN
No. 0119**

**PA Transmission
Case Dimensions**

On orders shipped after October 3, 2016 the PA Transmission with 2.10 Ratio will have a new case dimension shown in the figure below. This dimensional change allows for more oil flow inside the case for better chain lubrication.

At a later date, PA Transmissions with 1.70 and 1.90 Ratios will change to the case dimensions as shown in the figure below.

The figure below shows the dimensional differences between the current PA Case and the updated PA Case.
